Ok we understand and are willing to supply five of our EP to work on the 29th since we promised them and have rearranged their schedules. We understand that the funding is not available yet. We're willing to support the project and move forward as planned.

Luis is correct in his assessment. I have over \$300k into supporting this project already and I want to be sure that we and are team members are protected and get paid going forward. I will update as there financing is finalized.

Update of Vegas.

This was the Projects Chairman final word as of late last night. Because their funding hasn't taken place, he will be going with some friends to do the security have a few people there so that they aren't having to pay anyone for the event. No one on ISIS' staff will be attending other than Don as a board member. I am sorry that this has been the change because we have geared up on this as well, but I will not move forward and waste more money until the funding comes in. Gene you are more than welcome to accompany Don but I would not waste the resources until the funding comes in. Don will be arriving and not sure of his schedule but rest assure that you are with us on this project when it starts and no one else. Don will confirm that as well. They just don't have the money to move forward yet despite them telling us to proceed.

Don, do you have anything further?

Hi

Just  
FYI,  
went  
to  
visit

SIS0081

MSG  
this  
past  
week  
for  
comparison  
to  
what  
we  
are  
looking  
at  
to  
propose  
for  
our  
venture  
in  
Vegas.

Steve  
and  
I  
both  
agree  
that  
the  
different  
types  
of  
cameras  
that  
will  
go  
into  
the  
certain  
areas  
is  
key  
to  
getting  
full  
coverage.  
The  
most  
expensive  
camera,

Avigilon,  
shows  
a  
completely  
different  
picture  
into  
showing  
us,  
and  
ultimately  
law  
enforcement,  
what  
they  
need  
should  
an  
incident  
arise.  
However,  
where  
there  
is  
doubt,  
we  
will  
have  
both  
different  
types  
of  
cameras.  
As  
soon  
as  
we  
get  
closer  
to  
breaking  
ground  
and  
determining  
that  
it  
is  
the

SIS0083

right  
time  
to  
bring  
together  
the  
entire  
team,  
to  
start  
their  
plan  
and  
present  
to  
the  
board  
what  
is  
recommended,  
I  
will  
send  
meeting  
notes  
and  
bring  
those  
parties  
together.

We  
are  
still  
on  
track  
for  
the  
ground  
breaking  
ceremony,  
however  
I  
believe  
the  
venue  
has  
changed

because  
of  
the  
amount  
of  
people  
and  
control  
the  
security  
will  
have  
to  
accommodate.  
Again  
as  
soon  
as  
I  
have  
that  
information  
I  
will  
also  
advise  
so  
that  
the  
proper  
personnel  
are  
in  
place.  
On  
Don's  
recent  
visit,  
the  
venue  
was  
talked  
about  
bringing  
everyone  
to  
the  
actual

SIS0085

site  
for  
the  
ground  
breaking.  
The  
team  
meeting  
bring  
the  
architect  
together  
with  
the  
construction  
and  
operational  
team  
is  
key  
for  
me  
to  
getting  
a  
presentation  
second  
to  
none  
for  
Don,  
as  
the  
Security  
and  
Board  
Director,  
but  
also  
Jackie,  
who  
is  
our  
ultimate "Client"  
in  
the  
venture.

The  
trip  
to  
the  
City  
was  
the  
very  
thing  
we  
needed  
to  
either  
confirm  
what  
our  
idea  
was  
on  
the  
security  
package  
needed,  
but  
it  
also  
showed  
me  
some  
great  
suggestions  
to  
use  
for  
customer  
services  
that  
will  
set  
us  
apart  
from  
everyone  
else  
in  
Vegas.

Once

SIS0087

again,  
this  
email  
is  
just  
to  
bring  
you  
and  
those  
on  
the  
copy  
line  
up  
to  
date  
with  
the  
progress,  
but  
also  
let  
everyone  
know  
that  
the  
time  
is  
near.

Jack  
and  
Brian,  
thank  
you  
very  
much  
you  
were  
both  
gracious
